CAMPBELL ISLAND (ZL9) ---> "The Perseverance DX Group (PDXG) has some unfinished business". Several PDXG members participated in the 2012 ZL9HR DXpedition to Campbell Island that was cut short by weather. "After their Successful VP8PJ South Orkney Islands 2020 DXpedition, PDXG is pleased to announce their intention to activate the New Zealand Sub Antarctic Islands (ZL9), Clublog #24 Most Wanted, in the 2021-2022 timeframe.

The plan includes 160-10m operation, CW/SSB/RTTY/FT8, with an emphasis on 160, 80, 60, 40 and, propagation dependent, 12 and 10 metres. The landing permit process is pending and discussions with transportation partners have begun. However, the Covid-19 lock down has caused significant delays and uncertainty. Additional information will be published as it develops". [TNX K5GS]

CQ CONTEST HALL OF FAME ---> Established in 1986, the CQ Contest Hall of Fame honours those contesters who not only excel in personal performance but who also "give back" to the hobby in outstanding ways. CQ Contesting Editor David Siddall (K3ZJ) conducted a virtual induction ceremony at the conclusion of the daylong 2020 Contest University webinar on 14 May. This is the 37th annual induction and the first to be conducted online. The 2020 inductees to the CQ Contest Hall of Fame are:

\* Geoffrey Howard, W0CG/PJ2DX, who purchased and restored the PJ9JT contest station in 2000 that had been owned by CQ Contest Hall of Famer John Thompson, W1BIH/PJ9JT. The location was named "Signal Point" and the PJ2T callsign pays homage to PJ9JT. Geoff established the Caribbean Contest Consortium to help manage and maintain the station, and has consistently made the station available to guest operators over the years, including serving as host station several times for young operators participating in the Dave Kalter Youth DX Adventure program. He has also worked closely with VERONA, Curacao's national ham radio society. Geoff served for more than 25 years in the United States Air Force, retiring as a colonel; worked for RCA and the Federal Aviation Administration, and taught in the Graduate School of Management at Kent State University in Ohio.

\* Willard "Bill" Myers, K1GQ, a pioneer of computer-based systems for designing and switching antennas at contest stations, designed the Cushcraft "Skywalker" series of monoband Yagis, helped build the early PacketCluster network and served as mentor to several of today's most prominent contesters, including K1AR, K1DG, K1JX, and others. Bill was also a major behind-the-scenes force at the 2014 World Radiosport Team Championship (WRTC) competition in Massachusetts, and is currently providing support and refinement of the SkookumLogger contest logging program for Apple computers.

\* Gene Zimmerman, W3ZZ (SK), was a major force in VHF contesting as well as an accomplished HF tester. He was a member of both ARRL's and CQ's contest committees at various times between 1972 and 2012, was QST magazine's VHF Editor for nearly a decade, and was CQ Contest magazine's VHF columnist as well. Gene took over the struggling CQ World Wide VHF Contest in 1999, reinvented it as a 6- and 2-meter only event and sparked its growth into a truly worldwide competition. He was also instrumental in organizing the mid-Atlantic VHF contesting group that became known as the K8GP Grid Pirates.

Registered participants in the virtual Contest University webinar were able to view the induction ceremony live. It was also "simulcast" on DX Engineering's YouTube channel, where it is stored for later viewing: <https://www.youtube.com/user/DXEngineering/featured> (the recording of the ceremony starts at 09:15:30).

CQ is issuing a separate news release this year - with separate release times - for each of the CQ Halls of Fame (Amateur Radio, Contest and DX) due to disparities in scheduling induction events. The DX Hall of Fame induction is planned to air live on Ham Nation (<https://twit.tv/shows/ham-nation>) on 20 May at 21 EDT (1 UTC on 21 May), with the on demand download available within 24 hours.

DXPEDITION OF THE YEAR ---> On 14 May the Southwest Ohio DX Association announced their 2019/2020 DXpedition of the Year award, which recognizes "excellence in DXpedition planning and execution" from Most Wanted DXCC Entities. DXpeditions completed from March 2019 through February 2020 were eligible for this year's award, which has been presented to the TI9A DXpedition to Coco's Island (February 2020). Watch the video of the announcement on <https://www.swodxa.org/dxpedition-of-the-year/>.

QSL 9J2LA ---> "I am still waiting for the 9J2LA cards to arrive from UX5UO QSL Print", Charles (M0OXO) reported on 12 May. A certain delay was expected "due to Covid-19 issues", but apparently "there are more restrictions on the route between Ukraine and the UK. Labels and envelopes are all ready here, I just need the cards to arrive and they will be mailed within 48 hours of receipt". Please be patient and "stop emailing me asking about the position of the cards and LoTW".

QSL EY8MM ---> Mike Cizek, W0VTT is the new QSL manager for Nodir, EY8MM. Mike will have all logs dating back to 1 January 1994. A batch of new cards has been ordered, but it might take some time before Mike receives them.

QSL VP8PJ ---> The QSL cards arrived from ON5UR QSL Print Service, Tim (M0URX) reported on 12 May, "so the job of labeling the cards and stuffing the envelopes begins. ALL cards requested up to the mailing date will all be sent in the mailing and a press release from the VP8PJ team will inform you when the job is done" The OQRS on <https://www.m0urx.com/> is open, "so you still have time to make your QSL request".

QSLs received direct or through managers: 4A2L (NA-135), 5H3EME, 5H3UA, 6F3A (NA-153), 7X4AN, 8R1/AG6UT, 9M8PSB, CB0Z (SA-101), HU1DL, LA/CT1BWW (EU-076) PJ4/NE9U, SU8WRC, SU8X, TK/S57VW, TO7DL (AF-016), TT8SN, TU5PCT, TZ4AM, UN9GD, VP2VB, VP6R, XV1X, XZ1Z, Z81D, ZF5T.
